

A SUMMARY OVERVIEW OF THE PAIGNTON & BRIXHAM LOCALITY SOUTH DEVON AND TORBAY - 2013

This summary is part of the South Devon and Torbay Clinical Commissioning Group (CCG) Joint Strategic Needs Assessment (JSNA) and presents a summary of the registered population within the locality of Paignton & Brixham.

Overview: The Paignton & Brixham population is generally older than the national average, with some 4% aged 85 years or older. The locality experiences noticeable levels of deprivation, especially in parts of Paignton.

The locality takes in the seaside towns of Paignton & Brixham and extends to include the surrounding rural communities such as Kingswear and Maldon.

Figure 1: Locality map

There are 11 GP practices in the locality, serving a registered population of around 72,600.

Table 1: Population structure	Paignton & Brixham		England
	Count	%	%
0 to 19	14,300	19.7%	23.8%
20 to 64	39,200	54.0%	59.3%
65 to 84	16,200	22.3%	14.6%
85+	2,900	4.0%	2.3%
Total	72,600

The effects of alcohol have been linked with poor productivity and economic performance, crime and inequalities as well as a burden on secondary care.

There is a noticeable difference in emergency admissions for patients living in care homes.

The crude rate, per 1,000 persons aged 65 and over living in a care home, is highest for those registered with Cherrybrook. However, with relatively small numbers, there are relatively wide confidence intervals.

Dementia is more prevalent with age. With an ageing population; we would expect the number of people with dementia in the population to increase.

There are a lot fewer patients on a dementia disease register than we would expect given the demographic of the practice population. For example, at Grosvenor Road surgery, around 70% of the estimated population with dementia are on the dementia disease register.
