SOCIAL CARE

The figures within the social care section for Torbay as a whole relate to those individuals whose postcode is within the Torbay area, it does not include those whose addresses are unknown or are outside Torbay.

The number of requests for adult social care support for new clients (65 and above) over the previous three years has been slightly higher in Tormohun than Torbay as a whole (Fig 16). A new client is defined as an individual who was not in receipt of long term support at the time of the request.

The key for all five charts in the Social Care section is shown below:

- Ward rate significantly higher than Torbay
- Ward rate not significantly different from Torbay
- Ward rate significantly lower than Torbay

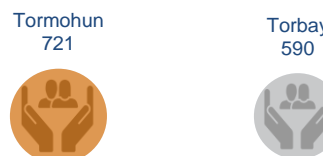

Fig 16: Requests for Adult social care support for new clients, aged 65 and over per 100,000 - 2019/20 to 2021/22

Source: Torbay & South Devon Healthcare Trust, Image: social care by Diego Naive from the Noun Project

The rate of long-term support for those aged 18 to 64 who have a primary support reason of Learning Disability over the previous three years has been slightly higher in Tormohun than Torbay as a whole (Fig 17).

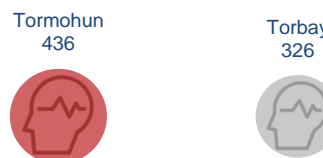

Fig 17: Rate of long-term support for those with a primary support reason of Learning Disability, aged 18 to 64 per 100,000 - 2019/20 to 2021/22
